

CONCEPT

Concept of the Multi Construction Division

The Multi Construction Division of Tsuchiya Home, the business division that specializes in non-residential buildings such as public buildings, stores and other special buildings, is skillfully applying energy-saving technologies developed through Tsuchiya Home's home-building activities to expand its business to include the construction of nursery schools, hospitals, Buddhist temples, blocks of flats, rental and condominium apartment buildings, and even mega-solar projects.

Our building construction and real-estate experts form an organization worthy of the trust of all our customers.

Professional qualifications of members the Tsuchiya Home Multi Construction Division

- Three first-class registered architects
- Seven second-class registered architects
- Three first-class architectural construction management engineers
